hec figura fuit q̄to capitulo in q̄ circulis p̄ncipalibz representat orbem hunc infra quem
 sunt 4^{or} elementa et omnia genabilia & corruptibilia. / Ignis ē calidus & siccus immediate
 post sphaerā lune situat⁹. ibi tam p̄uox et claz⁹ q̄ ē inuisibilis. Aer ē calidus & humidus in
 tres regiones diuisus. Quaz sup̄ma sphaerā ignis inuenit⁹ & cotra⁹ ad celo de oriente in
 occidentem mouet⁹. Ad ē frigida & humida q̄ inter aerem et terrā naturalit⁹ situat⁹.
 Sed tū vna p̄s terre q̄ est minus gravis q̄ alia sup̄eminet et p̄ magna portē distooperit⁹.
 Aquas ut sic habitabiles. Maxima ante profunditas ocean⁹ ē. 14. miliaria ut quidam
 a marinaris inuentū ēē asserunt. Distantes etiā q̄ eadem profunditas minor ē q̄ dupla
 ad distantiā centri mūdi & centri t̄re. Terra ē frigida et siccā q̄ firmat⁹ hēt quasi
 rotunda. Cum⁹ circuit⁹ continet 3000. lē. p̄poriones totide gradibz celi correspondēt⁹.
 et cuilibet gradui correspondēt in terra septingenta stadia. quoz octo valent miliaria:
 et duo miliaria leuca. Vnde concludunt aliqui totū circuitū terre continere quidem
 millia septingenta et quinquaginta leuca⁹.

Liber Johis lethe

to all that the said Henry King of France
 with Wilbergh King of France (and some other
 and a certain other) to the heirs of the said
 the buildings upon the premises to be long
 the grounds of John Loke on the south side
 the north side in length between the ground
 to the King the street on the west side and
 in the on west side between the grounds of James
 ground of Hugh Walker on the east side to the
 and half a quarter of ground to the heirs of the
 all the heirs of the said Lady Isabella and
 those lands and so the said John of
 and half a quarter of ground to the said John of
 Lady Isabella and so the said John of
 ending in the said west side of the said
